

**JACKSON & JACKSON  
REFRIGERATION PTY LTD**  
*sustainable cooling solutions*

# Carbon Dioxide Refrigeration System

## Carbon Dioxide (CO<sup>2</sup>)

- is not chemically active
- is non-flammable
- is non-toxic
- does not contribute to ozone depletion
- fulfils key requirements for financially viable, future-compatible refrigerant

## CO<sup>2</sup> refrigeration compressor

- provides clear benefits
- up to 25% reduction in energy
- provides up to 33% more freezer capacity due to shorter freezing time
- improved product quality due to quicker freezing
- low installation costs

180 Edith Street, Innisfail Qld 4860  
54 Supply Road, Bentley Park Qld 4869  
13A Comet Avenue, Atherton Qld 4883
